The description of the ponds and fishponds is not exactly correct (or certainly is a full description). There are 2 sets of ponds. The Carron Row Farms ponds (part of which is considered an Ancient Monument, I believe). These ponds are managed by our angling club but are owned privately. The public footpath is correctly described. There is also the ponds behind the Great Barn. These are actually owned and managed by our angling club. It should be clear they are NOT part of the new park. Both sets of ponds are valuable green space and should be correctly described

Q5 What improvements or modifications should be made to the neighbourhood plan?

(You will need to say why this change will enable the Plan to proceed. It would be helpful if you could provide revised wording of any policy or text. Please be as precise as possible.)

See above...Im happy to help improve thedescription if required. Just drop me an email or ring. note The ponds above do provide excellant leisure opportunities for titchfield residents but only get a passing mention in the plan as 'green space'. The voluntary effort on the ponds and surrounds enables conservation, green initiatives, and provides leisure opportunities including free coaching and classes for local children.
