WE OBJECT TO THE PROPOED DEVELOPMENT

Why must you use this very small plot of green land to build some residential properties?

WHEN at Redbarn you could build many apartments/flats/older persons accommodation with all that green space.

Station road has a problem NOW with vehicles with the traffic lights at the bridge some times the vehicles queue down station road to and on to the A27 you will not have access/exit on to station road without adding more big problem to traffic flow.

Have the council given any thought to parking space's for 15 vehicles/ the dustbin vehicle and other services parking spaces on this small site.

From Mr & Mrs M.C.A. Brooks, [REDACTED]
