Representations should relate only to the Main Modifications and should not seek to repeat previous representations or request further changes to the published plan. Representations on Main Modifications need to focus on the grounds of soundness and legal compliance as set out in National Planning Policy Framework – namely that it is:

- **Positively prepared** – the plan should be prepared based on a strategy which seeks to meet objectively assessed development and infrastructure requirements, including unmet requirements from neighbouring authorities where it is reasonable to do so and consistent with achieving sustainable development;
- **Justified** – the plan should be the most appropriate strategy, when considered against the reasonable alternatives, based on proportionate evidence;
- **Effective** – the plan should be deliverable over its period and based on effective joint working on cross-boundary strategic priorities; and
- **Consistent with national policy** – the plan should enable the delivery of sustainable development in accordance with the policies in the Framework.

MM13
 I do not feel that a correct assesment of the implications of large additional volumes of traffic have been correctly made. The road network is already at capacity during peak times and the potential of another 3000+ vehicles moving around the M27 junction 10 and the A32 has not been considered. Improvements to the road network will not automatically mean that traffic flow is good and reasonable journey times/queue levels on the surrounding roads are maintained.
