The area chosen does not have any integrity. It is not geographical, political, economic, historical. It is divisive and without authority. The work to date has cost in the order of £13,000 of public money and a referendum will cost even more with no value added. The report is verbose and indigestible mainly reiterating what is already in the public domain. The Forum committee has haemorrhaged most of the original committee. The village has for the past 50 years enjoyed the services and support of the Village Trust. The forum initiative has been generated by newcomers to the community who have caused alienation and upset to the community. There is no integrity as to the voting, if it comes to a referendum. Who gets to vote? Is it one vote per residence in the area or the number of people domiciled in the area. What about the workers who are not domiciled but whom travel into the village for employment. Do potential developers have a vote if they are resident? The planning concerns of the village are ably monitored by the two proactive borough councillors and the county councillor. Many of the aspect of the report are incidental to the matters pertaining to planning

Q5 What improvements or modifications should be made to the neighbourhood plan?

(You will need to say why this change will enable the Plan to proceed. It would be helpful if you could provide revised wording of any policy or text. Please be as precise as possible.)

The neighbour hood plan is an unnecessary, waste of time and money and should be scrapped.
