

Inspector's Question 3 for the Council (post hearings)

Eastleigh Borough Council Local Plan Inspector's Preliminary Findings (28th November 2014)

I am required to consider the Fareham Local Plan Part 2 independently and on the basis of the evidence submitted. However, a number of references have been made (for example in the responses to the recent work undertaken by the Council following the hearing sessions) to the Preliminary Findings of the Inspector into the Eastleigh Local Plan.

I appreciate that the two plans are fulfilling different functions but it would nevertheless be helpful if the Council could briefly comment on whether or not the findings of Mr Emerson have any implications for LP2 of which I should be aware.

A response within two weeks would be welcome.

David Hogger

Inspector
