Civic Way,  
FAREHAM PO16 7AZ

Dear Sir,

Corner of Station Road and the A27 Portchester.

The Portchester Society is totally opposed to the above site ever being used for building of any sort. This was thrown out in 2008 and should never have been added to the Plan.

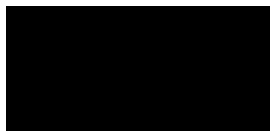

A three storey old peoples' accommodation is completely inappropriate - how many old and infirm people will come to harm at this very busy junction?

The proposed access from Station Road is just not feasible as there is often a build up of traffic all the way down the bypass towards Fareham at peak times.

The traffic lights at the Station help to add to the access problem. This will just cause more chaos in Patchester.

Also, with no parking provided, how will ambulances, doctors etc get to the site safely?

Yours sincerely

Secretary

For Sean Withershaw (Chairman).
