### **Schedule of Main Modifications to The Development Sites & Policies Plan Submission Version (June 2014)**

---

February 2015

## Introduction

This document comprises the schedule of all Main Modifications that are proposed to the Development Sites & Policies Plan Submission Version (June 2014) (DSD01).

The Main Modifications that are proposed by the Council are changes to the Plan that are considered necessary to enact the Main Modifications that are identified by the Inspector in his Preliminary Findings letter. The identified changes all relate to the soundness of the plan.

All Main Modifications are subject to a six-week period for public representations commencing on 16 February 2015 until 30 March 2015. All comments that are received will be forwarded to the Inspector who will consider them as part of the Examination and.

All changes are shown with additional text underlined and deleted text ~~struck through~~.

DMM1	Page 8 Paragraph 1.11	<p><del>The Council's commitment to an early review of the Local Plan is reiterated in the Local Development Scheme. The Council is committed to review the Local Plan, and this is set out in the Local Development Scheme (Revised September 2014 ), which was agreed at Fareham Borough Council's Executive Meeting on the 1st September 2014. The Council's timetable for the Local Plan Review allows the Authority to take account of the current review of the South Hampshire Strategy. The timetable for the review of the Local Plan is as follows:</del></p> <ul style="list-style-type: none"> <li>• <u>Summer 2016 – Consultation on draft Local Plan (Regulation 18)</u></li> <li>• <u>Summer 2017 – Publication of pre-submission Local Plan (Regulation 19)</u></li> <li>• <u>Autumn 2017 – Submission to Secretary of State (Regulation 22)</u></li> <li>• <u>Winter 2017 – Examination (Regulation 24)</u></li> <li>• <u>Spring/Summer 2018 – Adoption (Regulation 26)</u></li> </ul>	To re-emphasise the Council commitment to review the Local Plan.	Proposed in the Council's Statement on Issues and Questions Issue 1 (DCD-05)

DMM2	Page 15 Paragraph 3.16 and Policy DSP2	<p>Core Strategy Policy CS17: High Quality Design sets out key design principles that should be adhered to in all proposals in the Borough. These design principles will be supplemented by the Design Supplementary Planning Document (SPD), which will provide additional detail and set standards for internal and external spaces. <u>The Council expects all new development to adhere to the Principles of CS17, whilst having due regard to the additional guidance within the Design Guidance (Excluding Welborne) SPD.</u></p> <p><del>Policy DSP2: Design</del></p> <p><del>All new development in the Borough should be consistent with the principles set out in Core Strategy Policy CS17: High Quality Design, and the Design Supplementary Planning Document.</del></p>	The policy is superfluous as CS17 is already part of the adopted development plan, and the Design SPD will become a material consideration once adopted. **iii. It comprises one or two new dwellings which infill an existing and continuous built-up residential frontage, where:**

- a) **the new dwellings and plots are consistent in terms of size and character to the adjoining properties and would not harm the character of the area; and**
- b) **it does not result in the extension of an existing frontage or the consolidation of an isolated group of dwellings; and**
- c) **it does not involve the siting of dwellings at the rear of the new or existing dwellings.**

A change of use of land outside of the defined urban settlement boundary to residential garden will ~~only be not normally be permitted unless where: other environmental benefits can be secured.~~

- i. **it is in keeping with the character, scale and appearance of the surrounding area; and**
- ii. **it will not detract from the existing landscape; and**
- iii. **it respects views into and out of the site.**

New buildings should be well-designed to respect the character of the area and, where possible, should be grouped with existing buildings.

Proposals should have particular regard to the requirements of Core Strategy Policy CS14: Development Outside Settlements, and Core Strategy Policy CS6: The Development Strategy. They should avoid the loss of significant trees, should not have an unacceptable impact on the amenity of residents, and should not result in unacceptable environmental or ecological impacts, or detrimental impact on the character or landscape of the surrounding area.

Although the supply of office floorspace appears to be insufficient there are a number of important factors to consider. Firstly, there is a substantial part of the potential overall supply in B2/B8 uses (shown from above) which is shown as B1-B8 (21,660sq.m), where the final use has yet to be determined of 35,690sq.m. It is conceivable that a proportion of this supply could, instead, come forward will be for offices, although it is difficult to ascertain at this juncture what this figure is likely to be and the flexible policies in the Plan would allow that to happen.

		Key Planning and Design Issues	<p>Due to land ownership, the site may not come forward as a single proposal. If the site is split, It is essential that the separate proposals for the site relate to each other to ensure that connectivity, legibility and permeability between them are not lost.</p> <p>The area that is available for development will impact on development form, as consideration will need to be given to existing residential properties, the trees on site, and the setting of the listed Jolly Farmer pub.</p> <p>Access to the site via Shorewood Close, using land owned by the Jolley Farmer, would be suitable to serve redevelopment of the site of up to approximately 25 dwellings. <del>Access via the lane between 47-43 Fleet End Road or Green Lane, with sufficient improvement including provision of a sufficient buffer to protect the amenity of adjacent properties, could support a reduced number of dwellings at this site. This capacity may be increased depending on the extent to which this/these access(es) can be upgraded.</del></p> <p>Ecological considerations: general biodiversity interest, the land is varied in terms of the quality of habitat and species richness. The site is over 1 km to Solent Maritime Special Area of Conservation (SAC) and Solent and Southampton Water Ramsar and within 10 km of several European sites. Opportunities should also be explored to continue the greenway (between 30 and 36 Fleet End Road) to enable non-vehicular linkages through the site to the adjacent wooded and countryside areas to the south and to Warsash Common and Sovereign Crescent Green Corridor further beyond.</p> <p>Southern Water sewerage infrastructure crosses this site. The development work is being afforded a high priority by the County Council. Land will be required to deliver this scheme, if it proves to be feasible, and will be safeguarded once the requirements are known. ~~the feasibility of a future bypass of Stubbington. These options include improvements to Newgate Lane South with or without a Stubbington bypass. Improvements based upon the current alignment of Newgate Lane and also a possible new alignment to the east are currently being considered including the line safeguarded for Strategic Road Network Improvements in the Fareham Local Plan Review 2000. It is likely that land outside the existing highway boundary, will be required to address the traffic issues on the southern section of Newgate Lane and work is progressing to provide a clearer understanding of requirements in order that the safeguarding can be confirmed once the detailed requirements are known. Following assessment of a number of options for improving capacity on the southern section of Newgate Lane, it is proposed to construct a new road to the east of the existing southern section of Newgate Lane. The new road would commence at Peel Common Roundabout with a new arm at the roundabout. The route heads northwards between Brookers Field and the River Alver to tie in with the northern section of Newgate Lane.~~

The scheme will require careful consideration to ensure that the route does not undermine the purpose of the Strategic Gap and does not result in any significant adverse effect on the physical or visual separation of Stubbington/Lee on the Solent and Fareham/Gosport. All stages of design, as the scheme progresses, will need to take account of the principles and criteria set out in Policy CS22 of the Core Strategy.

A total of <del>2,665</del><u>2,857</u> dwellings have been delivered between 1 April 2006 and 31 March <del>2013</del><u>2014</u>; this leaves a residual balance of <del>4,064</del><u>4,872</u> dwellings to be delivered during the remaining part of the Plan period (1 April <del>2013</del><u>2014</u> – 31 March 2026).</p> <p>Since the adoption of the Core Strategy, the Partnership for Urban South Hampshire (PUSH) has updated the South Hampshire Strategy to take account of revised economic forecasts, including the effect of recent economic downturn on rates of economic growth and house building. The review, formally known as the South Hampshire Strategy: A Framework to Guide Sustainable Development and Change to 31 March 2026, revised individual local planning authorities' housing targets up to 2026. Taking account of completion in the period 1 April 2006 to 31 March <del>2013</del><u>2014</u>, Fareham is now required to deliver <del>4,536</del><u>1,344</u> dwellings across the remainder of the plan period between 1 April <del>2013</del><u>2014</u> and 31 March 2026 (excluding Welborne) – see table 4.</p> <p><i>Amendments to paragraph 5.180</i></p> <p>Flexibility in the supply will also be provided through the delivery of “small sites” (see Appendix D). This additional supply will account for any potential shortfall in the delivery of identified sites if some of the identified residential sites do not come forward as planned. Small sites (fewer than five units) are an important source of Fareham’s housing supply. Hampshire County Council’s housing monitoring data reveals that, as at 31 March <del>2013</del><u>2014</u>, the Borough has a commitment of <del>409</del><u>139</u> net dwellings on small sites with extant permission (see Appendix D). However, agents and/or developers of these sites have not been contacted to understand the likelihood of the development coming forward, and so the deliverability of these sites is not certain. To this end, the <del>409</del><u>139</u> dwellings permitted on small sites do not form part of the housing land supply calculation but their contribution toward Fareham’s housing requirement has been highlighted as an aspect of flexibility in the housing land supply position.</p> <p><i>Amendments to paragraph 5.183</i></p>	and permissions and to take account of additional older persons allocation (see DMM25)	Issue 7 (DCD-11) also discussed in the Issue 7 hearing session with modifications subsequently proposed in the Council’s Additional Material Statement DCD-24

Appendix G: Fareham's Housing Trajectory, amend as follows;

## Fareham's Housing Trajectory and Five-Year Housing Land Supply (excluding Welborne)

The Council is required to identify a supply of specific deliverable sites sufficient to provide five years' worth of housing against its housing requirements, with an additional buffer of 5% (moved forward from later in the plan period) to ensure choice and competition in the market for land. Table 14 below, considers housing delivery, past and future, providing the overall housing trajectory across the plan period.

The trajectory identifies past housing delivery and the expected rate of projected housing delivery for the remainder of the plan period to 2026. Past housing completions are represented by row A. Rows D (Total Projected Housing Supply) represents the anticipated housing supply for Fareham Borough. This consists of sites identified in this Plan (Row C - Projected Planned Housing Completions), and a windfall allowance (Row C - Projected Windfall Allowance).

Row ~~H~~ (Total Strategic Housing Requirement) represents the housing requirements for the Borough outside Welborne. It is a combination of the housing ascribed to Fareham through the ~~revised South Hampshire Strategy (2012 PUSH South Hampshire Strategy Requirement)~~ adopted Core Strategy and, as required by paragraph 47, bullet point 2 of the National Planning Policy Framework, an additional 5% buffer of deliverable sites (Row G) moved forward from later in the plan period (5% Buffer applied to five year housing supply). For information purposes row I shows the annual requirements of the South Hampshire Strategy, with Row J showing this annual requirement added to the Strategic Requirement for the Borough.

Row ~~K~~ M demonstrates the number of dwellings above or below the housing target, of the Core Strategy, at any one year. Despite a shortfall in housing land availability toward the latter stages of the plan period, significant projected over-delivery in the early stages of the plan period will ensure that Fareham is capable of meeting its housing requirements.

Row ~~L~~ N shows the number of dwellings above or below cumulative housing requirements of the Core Strategy. A positive figure demonstrates that a strategy is ahead of the delivery target whereas a negative figure shows a shortfall in housing delivery. The cumulative rate of delivery remains positive across the plan, despite a shortfall in annual delivery against annual supply in the latter stages of the plan period. For information purposes Row O shows the number of dwellings above or below cumulative housing requirements of the South Hampshire Strategy

As the table demonstrates, Fareham is capable of meeting and exceeding its five year deliverable housing land requirement by 95651 dwellings ( $1,4631,418 - 1,068767 = 95651$ ). With regards to the developable supply (i.e. 6-10 year and 11-14 13 years supply) Fareham is in a housing deficit of -169190 ( $427246 - 596436 = -169190$ ) and -10629 ( $233137 - 333166 = -10029$ ), respectively. However, when past delivery is taken into account, Fareham is capable of delivering the Cumulative Requirement across the plan period (i.e. 2006-2026) of 42043729 dwellings with a projected surplus of 287929 dwellings.
