## Part B – Comment section for Main Modifications

You will need reference to the following document to make a comment:

- Schedule of Main Modifications proposed to the Welborne Plan

**Representations should relate only to the Main Modifications and should not seek to repeat previous representations or request further changes to the published plan. Representations on Main Modifications need to focus on the grounds of soundness and legal compliance as set out in National Planning Policy Framework – namely that it is:**

- **Positively prepared** – the plan should be prepared based on a strategy which seeks to meet objectively assessed development and infrastructure requirements, including unmet requirements from neighbouring authorities where it is reasonable to do so and consistent with achieving sustainable development;
- **Justified** – the plan should be the most appropriate strategy, when considered against the reasonable alternatives, based on proportionate evidence;
- **Effective** – the plan should be deliverable over its period and based on effective joint working on cross-boundary strategic priorities; and
- **Consistent with national policy** – the plan should enable the delivery of sustainable development in accordance with the policies in the Framework.

## BUFFER ZONES

The proposed 50m buffer zone is only the length of an Olympic swimming pool and, I would think, many gardens of the larger properties within Fareham.

I consider this distance to be totally inadequate to separate a new town – or even an urban extension – from an existing conurbation.

The 200m zone suggested at the recent Full Council Meeting of Fareham Borough Council should be the absolute minimum to allow traffic from the proposed development to integrate with the already overloaded and congested traffic within north Fareham.

I contend that even 200m distance between one town and another is derisory and certainly do not support the proposed 50m zone.
