

March 2015

Dear Sir,

Re the proposed modifications to the  
Borough Local Plan Part 3, the Plan -  
Surely the very fact this plan needs such  
major modifications should render the whole un-  
sound & be a never for. If each &  
every issue is hauled out for modification, plans  
will always be applied as they will always end  
up "Sound".

Even so, this plan fails on so many fronts.

Apart from the fact it is unwanted by the majority of  
Fareham residents, it still fails to provide enough  
affordable housing, its new much too close to surrounding  
villages, which will lose their character, and takes away  
a precious resource of farmland, which is needed to  
feed & sustain the pop.

A development of this scale cannot be.

in an area already struggling with traffic gridlock which the proposed improvements will just keep pace with current numbers, not another 6500+ cars.

Hospitals, doctors surgeries, schools are full to bursting - the proposed development will provide too little, too late.

The proposal is supposed to be justified to save infilling over the rest of Borough, but the infilling is already happening - one of your colleagues allowing a plan in Swanwick, so we will have infilling and a huge new town!

So lets ditch the new "town", at least we will be able to feed the "infillers".

Our countryside is so precious, I hope you can see that a case enough to reject this dreadful scheme.

Yours Faithfully
