- Schedule of Main Modifications proposed to the Welborne Plan

Representations should relate only to the Main Modifications and should not seek to repeat previous representations or request further changes to the published plan. Representations on Main Modifications need to focus on the grounds of soundness and legal compliance as set out in National Planning Policy Framework – namely that it is:

- **Positively prepared** – the plan should be prepared based on a strategy which seeks to meet objectively assessed development and infrastructure requirements, including unmet requirements from neighbouring authorities where it is reasonable to do so and consistent with achieving sustainable development;
- **Justified** – the plan should be the most appropriate strategy, when considered against the reasonable alternatives, based on proportionate evidence;
- **Effective** – the plan should be deliverable over its period and based on effective joint working on cross-boundary strategic priorities; and
- **Consistent with national policy** – the plan should enable the delivery of sustainable development in accordance with the policies in the Framework.

MM14
 I believe that rather more than a modification of the motorway junctions would be called for; more like a couple more lanes on the M27 might be required! As anyone who lives or travels around Fareham/Southampton/Portsmouth will testify, the volume of traffic in the area is close to critical now- it only takes an incident on a local main road or a motorway accident to produce virtual gridlock on all the roads in the area. A further development of 6000 homes is bound to produce more traffic in the area, however 'self contained' the development is. I fear for future generations of Fareham people- they will only ever know congested roads and will have lost the beautiful land to the north of Fareham at present.
